ML-120

LOAD CAPACITY
max. 120 kg

PANEL SIZES
up to 2.100 x 3.200 mm

TOTAL HEIGHT
2.090 mm

THE PERFORMANCE PARTNER FOR LARGE-FORMAT PLATES

With the Mobile Lifter from Reinhold Beck Maschinenbau GmbH, handling large-format panels in your upright panel store will no longer be a problem in the future. Equipped with six gentle yet strong suction pads, a load capacity of up to 120 kg can be guaranteed. Panels with a size of 2,100 x 3,200 mm can be transported easily. An extra-sturdy hose, which serves as a vacuum tank, maintains the vacuum even when the powerful vacuum pump is switched off. This way, the vacuum can always be maintained and accidents or transport damage can be ruled out. In the future, you and your team can work ergonomically without using your own physical strength.

Stacking of pallet heights up to 1,600 mm, electrically operated	
Tilt angle forward-backward 180°, electrically operated	
Head joint rotation angle clockwise/counterclockwise	180°
Head joint rotation angle	360°

The Mobile Lifter ML-120 consists of:

- + a mobile base
- + an electric lifting and tilting system
- + an automatic vacuum unit
- + a wireless, electric control system

Weight	170 kg
--------	--------

ART.: 350.100.00

FOOT

BATTERY

ELECTRICAL

THE PRACTICAL ASSISTANT FOR:

- + Rotate large-format panels from the vertical to the horizontal
- + Feeding large format panels to the processing machine
- + Transport of large-sized panels from the warehouse to the production hall
- + The feeding of large format panels into a panel saw

BATTERY CHARGING SYSTEM

The rechargeable battery system has two powerful rechargeable battery cells, which are easily charged via plug-in system.

RADIO REMOTE CONTROL

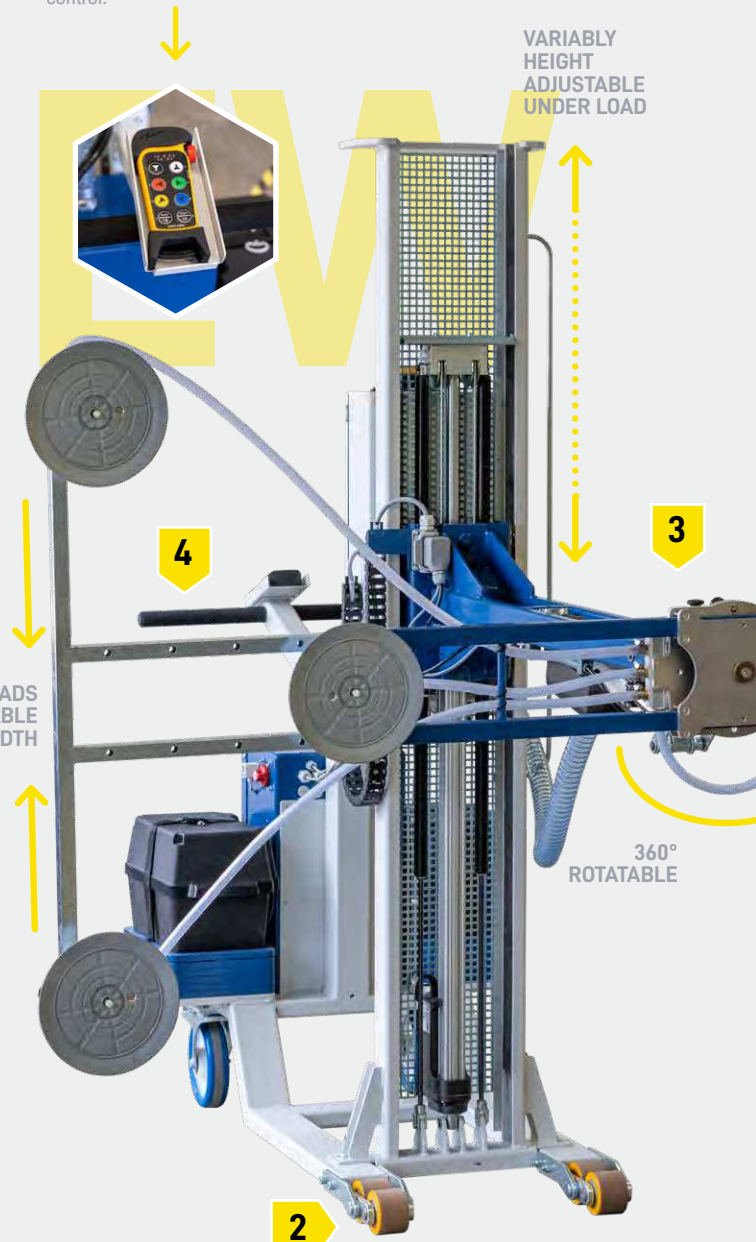

The Mobile Lifter can be flexibly controlled with the intuitive radio remote control.

VARIABLY HEIGHT ADJUSTABLE UNDER LOAD

SUCTION PADS ARE ADJUSTABLE IN WIDTH

360° ROTATABLE

MOBILE

SAFE STAND

Thanks to counterweights, a secure stand is guaranteed in every situation.

HIGHLIGHT

THIS IS WHAT MAKES THE TEAMER MOBILE LIFTER SPECIAL:

1

Six powerful suction pads with sensing valve for panel transport.

2

The compact design allows the Mobile Lifter to be moved as close as possible to the machines.

3

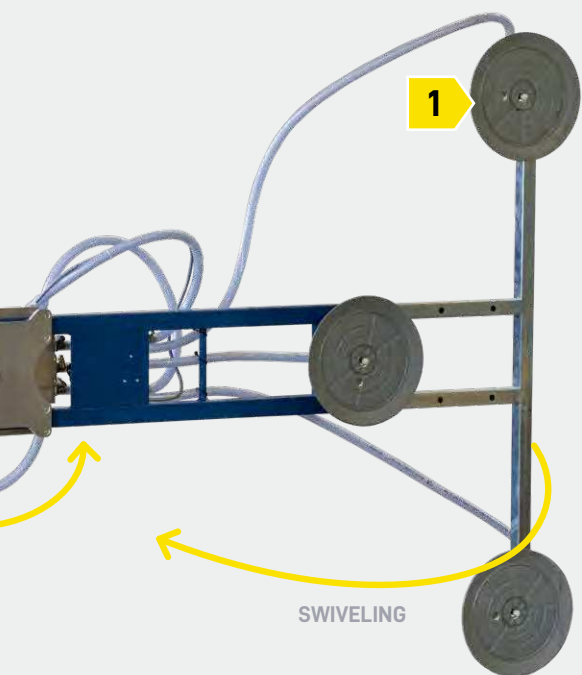

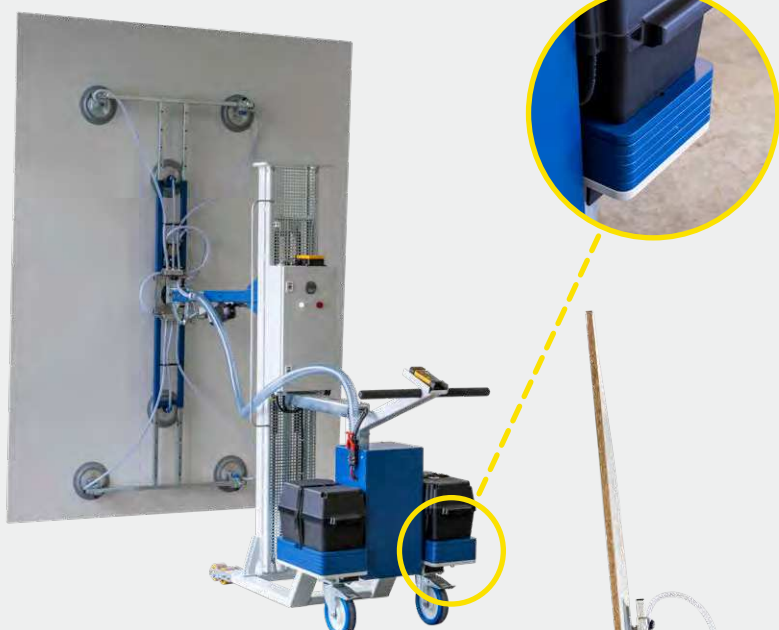

The head joint can be rotated 360° and is therefore flexibly adjustable.

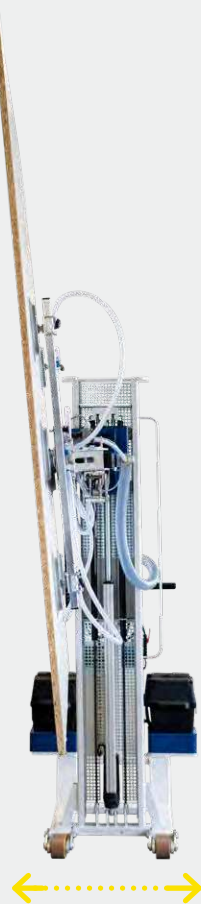

4

The Mobile Lifter can be flexibly moved to the desired position by means of the handlebar.

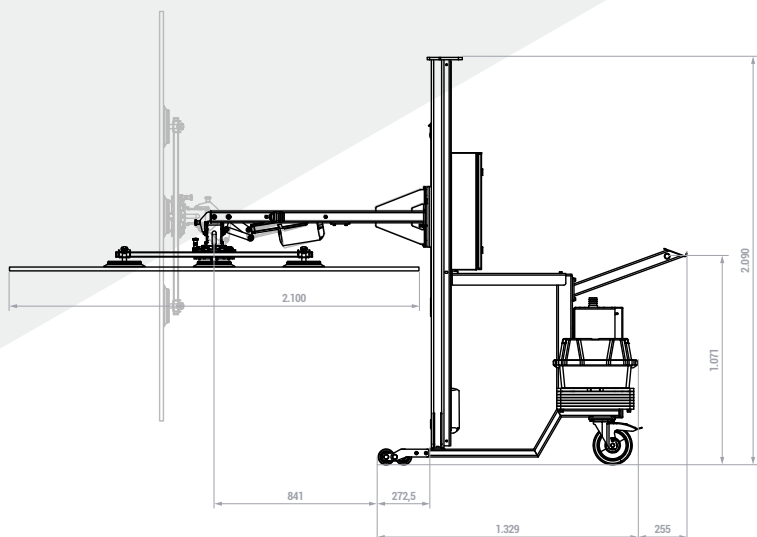

SWIVELING

PARTICULARLY NARROW

The 180° swivelling head joint enables panel handling in the tightest of spaces.
